PROFILE

Aspiring Data Engineer pursuing an MCA with a strong foundation in Python, SQL, Apache Spark (PySpark), Databricks, Azure Data Factory, and Delta Lake. Skilled in data ingestion, transformation, and pipeline development, with proficiency in Pandas, NumPy, and Power BI. Passionate about building scalable and reliable data solutions.

TECHNICAL SKILLS

- **Programming :** Python, SQL, C, Java
 - **Data Analysis:** Pandas, NumPy, Statistics, EDA
 - **Data Engineering:** Apache Spark (PySpark), Databricks, Apache Airflow, AWS S3
 - **Machine Learning:** Regression, Classification, Clustering, Scikit-learn
 - **Data Visualization:** Power BI, Matplotlib, Seaborn
 - **Database:** MySQL, SQL Server
 - **Tools:** Jupyter Notebook, Google Colab, Git, VS Code
-

EDUCATION

Master of Computer Applications

LJ University, Ahmedabad

Expected 2027

Bachelor of Computer Applications

CVM University, Anand

CGPA : 9.02/10

2022 - 2025

Higher Secondary Certificate (HSC)

CM Vidhyalaya Palitana

Percentage: 62%

2022

PROJECTS

PlayWithPDFs | Python, Flask

- Developed a web application with 35+ PDF processing and document conversion tools.
- Implemented features such as PDF merge, split, compression, OCR, and file format conversion.
- Built a responsive user interface with secure file upload and download functionality.
- Utilized Flask, Playwright, and PDF processing libraries to automate document workflows.

1M-Record E-Commerce Customer Analytics | Pandas, Matplotlib

- End-to-end EDA on ~1M transactions: ingest, clean, dedupe, parse dates, and feature-engineer (pandas, numpy).
- Visualized trends and distributions (monthly revenue, city/category, age/gender) and exported stakeholder charts (seaborn, matplotlib).
- Delivered a reproducible Jupyter Notebook, cleaned dataset, visual gallery, and actionable business recommendations.

Medallion ETL for E-commerce Orders | Databricks, PySpark

- Ingested raw CSVs into bronze Delta tables with schema/metadata.
 - Cleaned, deduplicated, and enriched data to produce silver datasets.
 - Materialized gold dimension/fact tables (dateId, region mappings) for BI.
 - Spark optimizations (partitioning, broadcast joins) and documented [notebooks](#)
-

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Collaboration
- Continuous Learning
